**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Kartermann (US 4252273).

Kartermann discloses a straw comprising built in amusement units(64) inside the straw that are capable of rotating according to the flow of a beverage (col. 4 lines 35-47).

***Allowable Subject Matter***

3. Claims 4-5 allowed.

4. Claims 2-3 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

5. The following is a statement of reasons for the indication of allowable subject matter: The prior art fails to disclose or render obvious the claimed combination including straw amusement device having a pair of guide members having semicircular guide holes positioned to form a zigzag, and a pair of support members fixed between the guide members having support holes, and a rotating member mounted on the

support holes, by means of a rotating shaft, having three rotating wings radially extending from the body of the rotating member.
